Introduction

Ass Munchers is a great new site from the makers of ThroatJobs! Sometimes you want your dick sucked balls-deep in the throat of a willing whore. Other times however, you'd rather roll over and let that same filthy slut spend some time tonguing your asshole and slobbering in your butt-crack. These girls don't get shy, they don't blush... in fact, when you tell them to lick your ass they rush to feast on your ass.

Adult Review

For some of us smut is a window into fantasy land where the women will do all the things our wives and girlfriends won't agree to do. For others smut serves as a highlight reel designed to remind us of what we were doing or having done to us last weekend.

Ass Munchers is a site that satisfies both the would-be experimenter and the mad scientist. With one beautiful face after another buried deep in the crack of some average guy's ass.

The quality of the video and sound is all first rate and best of all the site stays true to the niche of subscribers it is trying to serve. Ass Munchers isn't two seconds of ass eating followed by a ten minute sex scene... this is exclusive content that gets down to the nitty gritty of what you are looking to see!

Plenty of pics and well segmented video formatting makes the site dial-up friendly, downloadable content that can be used again and again long after your membership has expired makes Ass Munchers broadband friendly as well.

If this isn't your fetish you will be bored to tears because Ass Munchers is so well focused, but if you are into this genre of content you will get plenty of bonus material from a variety of linked sites to satisfy you when you are in the mood to see something other than ass eating as well.
