Introduction

Flat Fee Cams is not what you might be used to with live cams - instead of a per minute cost, you're looking at one price per month to get cam time, both nude and hardcore, with plenty of European amateurs.

Adult Review

Live cams are something that everyone talks about, but per minute costs can truly be out of control. You can easily find yourself racking up a bill in the hundreds in no time, and that's just to find out what private cams are like. Flat Fee Cams handles it a different way, giving you access to quite a few different truly live cams for one monthly fee. It's an interesting way to handle a live cam site, and gives you a low cost option to trying them out.

 The member's area is set up like a standard cam site, making it easy to get around and explore the live ladies waiting to talk and show off for you. This is a European based cam site, so there are many cams labeled something like Prague girls. If you love the Euro ladies you won't have a single problem with this, obviously. There are also niche cams such as BBW and lingerie to cater to less common tastes.

 The cams are 640x480 and very good quality in general ♦ much higher than average cam quality. The lighting is good as well, so it's probable that all of these hotties are taken in to a studio setting so there is quality control. The amount of cams on at a time depends on the time of day, but even on a non prime time for these girls there were 7 out of 29 available. Sound availability depends on the cam you're taking a look at, and one cool feature is the fact that they offer multi view cams (ie, the girl set up three or four cams in the room to give you nice vantage points of the action).

 Flat Fee Cams is a good choice if you're been thinking of getting into the live cams game, but you didn't want to have that massive monetary outlay at the start. It is a relatively small number of cams, but given the price they offer more than enough to keep you going back for more.

Porn Summary

This is an interesting way of handling a live cam site, and overall they did a great job. The cam quality especially is very good, and the fact that there are a sizable amount of cams on at any time of day makes it very attractive even given the relatively small number of cams.
